JRAHK

Intelligent. Powerful.Precise.Safe

Brushless DC Intelligent Controller

We specialize in the design and manufacture of high-performance motor controllers, which serve as the core "brain" of e-bikes, e-scooters, e-tricycles, e-forklifts, electric cars, and off-road e-vehicles.
Our expertise lies in the depth and continuous innovation of intelligent control technology. We have developed our core technology for tri-mode, dual-mode Hall-effect sensorless controllers. Through advanced FOC algorithms, we provide vehicles with a smooth and responsive driving experience, while built-in multi-layer protection and intelligent diagnostic functions ensure reliability, delivering powerful performance while extending driving range.

Dongguan Bocheng Technology Co., Ltd.

Three-mode Gold Series Sine FOC Brushless DC Controller

MOS Tube	6-Tube	9-Tube	12-Tube	15-Tube	12-Tube	Double row 18 tubes
Voltage	36V-48V-52V	36V-48V-60V-72V-84V	36V-48V-60V-72V-84V	36V-48V-60V-72V-84V	36V-48V-60V-72V-84V	48V-60V-72V-84V
Current	18A	20A-26A	26A-33A	34A-40A	45A	45A-60A
Power	250W-400W	400W-600W	600W-1000W	1000W-2000W	2500W	2500W-3000W
